J. W. RUST,

SIAM'S METROPOLIS.

An Oriental City Which Has Been Called

the Venice of the East.

Bangkok is entirely different from

all other Eastern cities I have seen.

Elsewhere the houses are compacted

together so as to cover as little space

as possible and the people massed as

in hives. This city, however, with its

350,000 people, covers more ground

than Canton, with its 1,600,000.

There are but few streets, but they are

quite broad. The canals run in every

direction, and are so numerous that

the Siamese are proud to call their

capital the Venice of the East. Houses

project over these canals, with open

balconies, and both sides

of the river for six or more miles are

lined with floating houses, used not

only for residences, but for business.

People do their shopping in boats,

and while a woman sells to her cus-

tom in open view—for all houses

have open fronts—her lazy husband

sits, sitting upon a box of goods, and

his children bathe and swim

around the house. In rowing or be-

ing rowed about there was never a

moment that I could not see some-

where a bathing, and just at sundown

all the common world seems amphibio-

us. The pangoon is retained on

when in the water, and is then either

exchanged for a dry one or left on to

dry. Rivers and canals are always

filled by freight boats, forty to sixty

feet long; by small peddle-boats; by

canoes of all sizes, from ten feet,

heavily loaded with up to a hundred

or more feet, with fifty or more pad-

dles moving in state with some high

official. I saw one long canoe with

nearly a hundred rowers. Each one

would dip his paddle and then lift it

on high—a curious sight thus to see

nearly a hundred paddles in the air at

the same time. There are quite a large

number of small steam barges in the

city. These dart about very rapidly.

In fact, all boats seem to do so, for the

tide runs very swiftly, and boats going

with its current move in the channel,

while those going against it strike the

eddies. This makes the river a very

lively one, especially toward the

end of the day.

Trees abound throughout the town,

along streets, along the canals, and

about the houses—many of them of

good forest size. Looking down from

a high pagoda one can scarcely realize

oneself in the heart of a great city.

The ordinary house is almost entirely

lost in the mass of green. Here and

there one peeps out looking cool and

shaded. But the lofty, snow-white

pagodas, the tall, steep-roofed temples

—roofed in tiles of many colors—

many of them in gilt, the beautiful

royal wat and cenotaph, and the white

palaces themselves make the city from

an eminence look like a vast royal

garden, with princely palaces and

oriental temples nestled among orna-

mental tropical trees.—Carter H. Har-

rison, in Chicago Mail.

GOOD-NATURED PEOPLE.

Are They as Interesting as Some of a

'Positive Disposition?

As a general thing, original peo-

ple, people with wills and opinions—

in other words, interesting people—are

not, I am inclined to believe, of a

very easy-going temper. The man who

has a kind of his own usually wishes

to have his own way, and is there-

fore not likely to be regarded as in

any conspicuous degree pleasant.

LIGHT-HOUSE LIFE.

Difficulties in the Way of Getting Sup-

plies to the Keepers.

"I know at least one man in this

country who is able to live cheaply

and get paid for doing it, all because

he lives where the cost of getting his

food, fuel and light to him is about

five times as much as the original cost

of the supplies themselves, and he

lives not more than thirty miles from

Boston, at that," said the captain of a

vessel in the coastwise trade between

New York and Portland, Me. "It

seems queer that a man can get along

more economically on account of the

high cost of getting supplies to his

home than he could if the cost were

less, don't it? But it's a fact all the

same. For instance, a ton of coal costs

about \$6 in Boston. If it costs no

more than \$6 to lay it down in this

man's bin, he would have to pay for

both coal and delivery, and his coal

would stand him \$12 for every ton.

The same, in proportion, with his

beef and his pork and his potatoes and

his flour and his oil. But just because

he gets may be \$1,000 a year for stay-

ing where he is and receiving the

annual donations.

"It will be queer, now, if you ain't

thinking to yourself that this man I

am speaking of has a soft snap. Well,

may be he has. He is a light-house

keeper. He lives on a big rock at

Cape Ann, N. H.,—a seagull vessel can

get within a quarter of a mile of his

home. No loaded boat can reach his

abiding place in safety. To get a ton

of coal to his bin, which is perched on

the rocks above high-water mark, it

must first be shipped from Boston to

as near the light-house as the vessel

can approach. The coal is in bags,

and these are placed in small boats

and taken to the edge of the shoal

water, inside of which they dare not

enter. The bags are then carried

ashore on the backs of the crew, who

wade ashore through the shoals,

clamber up the rocks with their

burden, and empty the coal in the

light-house bin. The

other bulky supplies are delivered

to the Cape Ann light-keeper in the

same way, and the Government

pays the expense. May be he has a

soft snap, but I'd rather be on my

vessel, tossing and pitching on the

hardest sea that his light ever shone

upon, than to be so firmly grounded

on that Cape Ann rock like he is.

Wouldn't you?

"But this man isn't the only one

the Government supplies with free

coal, light and rations at its light-

houses. Whenever the keepers are

located at stations where the cost of

carriage exceeds the cost of supplies,

they are provided free; but where the

cost of delivery does not exceed the

price of the goods, the keeper is com-

pelled to pay for both. That's a queer

rule, but Government has many a

queer way of doing things. At all of

the barren rock light-houses, like

Cape Ann, Minot's Ledge and others,

the keepers have even to be supplied

with fresh water from the points on

the main land. They collect a great

deal from rains in cisterns and tanks,

but in most cases it is not sufficient

for the needs of the keepers, and the

supply from abroad must be regular-

ly taken to them no matter what the

cost or the difficulties are in getting

it there.

FINE BUILDINGS

To be Erected in the Queen City of the

West.

NEW CITY HALL.

No city in the world of its size needs

a building for city offices worse than

Cincinnati. The present edifice used by

the officials is totally unfit for the pur-

pose. The city has out-grown it. By a

recent act of the legislature the author-

ities were authorized to issue bonds to the

amount of \$700,000 for the purpose of

erecting a building adapted to the needs

of the municipal government. Plans

were adopted and the work began.

The cut above shows the front eleva-

tion as approved by the trustees. Since

its adoption, however, a movement has

been started looking to the condemna-

tion of property near the original site

that would give more room for the build-

ing. This would cost \$300,000 more.

As the increased outlay met with some

opposition from the press and people, a

bill was passed a few days ago by the

general assembly referring the matter di-

rectly to the people, to be voted on at the

next election. This election occurred re-

cently and resulted in favor of the con-

demnation, thus giving space for the

T. E. BARTLEY, Business Manager.

The Legislature could not even grapple with the feeble minded institution.

Dr. Walter Byrne, of Russellville, will be appointed to the Anchorage Asylum.

Henry James' latest book is "The Lion." It is doubtful whether Mr. James' treatment of the subject is exhaustive or not.

The President has nominated McVie to be Chief Justice. Mr. Fuller lives in Chicago and his nomination gives universal satisfaction.

An exchange says the "Hopkinsville papers are devoting their time and space to railroad discussions." Yes, that's right, we are just fighting time and space.

The Henderson Journal surmises that the Ellis Literary Bureau is flooding Union county with copies of the KENTUCKIAN. If somebody don't take that "bureau nightmare" off of the Journal, it will wash our most esteemed contemporary.

The Powell organs are falling into line for a primary election. They readily discerned that the people would have no other method of nominating candidates, and to hide their chagrin at the popular verdict they acquiesce in the plan of the people.

The Senate has passed a bill appointing a State Inspector and Examiner at a salary of \$3,000 and traveling expenses. The Governor has the power of appointment. His duties will be to supervise the various State institutions. There is a man in Hopkinsville who will fit that position exactly.

The Indiana Democrats nominated C. C. Mason for Governor, Wm. R. Myers for Lieut. Governor, Robt. W. Myers for Secretary of State, C. W. Munson, Auditor, Thos. B. Byrne Treasurer, J. W. Kern for Reporter, Gov. Isaac P. Gray was endorsed for Vice-President and a ringing platform was adopted.

Gov. Buckner has informed Supt. Pusey, of the Anchorage Asylum, that his resignation would be accepted. It was reported that Dr. Frank Clark was to be moved from Lexington to Anchorage but the Governor denies this rumor. The cause of removal is that the Governor thinks he has a better man for the place.

Senators Ingalls and Voorhees exhibited themselves according to programme Tuesday. The Kansas statesman was denounced by the Hoosier orator as a liar. It is humiliating that our Senators should stoop to turn the upper house into a circus, but Senator Voorhees seems to be the man to keep the arch clown from taking the earth.

The Republican State Convention in Louisville Wednesday selected Bradley, Denny and Thomas delegates at large to Chicago. Chairman Lewis in calling the convention to order charged Fayette Hewitt with knowing all about the Tate defalcation last July. It is very evident that the Republicans are going to use Tate's misfortune for campaign thunder.

Last Sunday night in Clarksville a young divinity student by the name of G. B. Scroggins arose in the Cumberland Presbyterian Church and asked pastor Brigham to be allowed to say a word before the services began. Scroggins was loaded and held the platform till time for adjournment. When he concluded Rev. Brigham dismissed the congregation with disgust on his face an inch thick.

The race is between Ellis and Powell. It does not take a prophet to foresee the result. A gentleman well acquainted with Hopkins county politics informs us that the Owensboro boy is having things his own way over there. Encouraging reports are coming in from Union and Webster, and the Ellis boys in this county may feel assured that their favorite is in the home stretch and pointed to win.

The committee investigating the railroad lobby in Frankfort resorted to the employment of a notorious Pinkerton detective. If the Thomas bill is to be defeated by such methods it will be among the martyred slain. It seems a little strange that the services of a detective were needed, and it is certainly a sad comment on legislation when the members have such dark ways that they are hunted down as criminals.

We do not wish to be misunderstood in our railroad editorials. We are committed to no plan, for we have no plan to which to be committed. We are not unappreciative, most reverend seigniors, of the value of an outlet from here to Gracey. We are merely sporting in the iris-glimmer of the bubbles which float in our atmosphere. The O. V. is a delightful inflated vesicle, but it needs a gold patch to keep it afloat. The Chicago and Gulf sails out on the ambient air like a ball of beautiful tints, but like Plato's perfect forms, it is an immaterial, incorporeal, insubstantial entity. The Gracey outlet don't wear so fine a garb, but there's a deal more soap in it. Now, most worthy fathers, in the language of our most respected fellow citizen, Col. John Overholser, "if you can find anybody on more sides of this question than we are, we would like to see him."

IS IT CRUTCHFIELD OR BRAXTON?

SQUIRE TINSLEY SPENDS TWO DAYS INVESTIGATING THE FOUL ASSAULT UPON MRS. PATZKE

The Evidence In Full.

The cases of the Commonwealth vs. Jim Crutchfield and Dave Braxton, charged with attempted rape, was called for investigation before Esq. Tinsley Tuesday morning; also the case against George Lander for shooting said Crutchfield was called, all three of the cases to be joined in the investigation. Jno. W. Payne represented the Commonwealth; James Breathitt, Braxton; Robert Lander, col., Crutchfield, and A. V. Townes, Lander. On motion of Mr. Breathitt the case was postponed till Wednesday morning.

Wednesday morning the court room was crowded, the prisoners were brought in and the trial proceeded. The investigation was tedious and in some respects desultory, therefore we reproduce only such testimony as is necessary to a full and just understanding of the case. The injured lady was the first witness and she was at times almost overcome as she told the horrible story of the assault.

Mrs. Patzke: My name is Matilda Patzke. I look at Mr. Mendel's. My maiden name was Carnicht; am now divorced from my husband who lives in Wisconsin. My step-father, Elmholt Schamp, lives on a farm two miles north of the city. Have lived in this city about 1 year, and been with Mrs. Mendel the last 7 months. It is my custom to go to my step-father's every Sunday evening after my day's work is done. I started as usual last Sunday. When I crossed the rock bridge on North Main street, I saw two negro men sitting on the bridge; one of them followed me, about 20 feet behind me. It was about dark. The negro passed me when we got about Mr. Lander's, and said to me, "taking an evening walk?" I turned to go back, but he rushed upon me and grabbed me and they me against the fence; pulled my clothing up and said insulting remarks. I screamed and he took a pistol from his coat sleeve and placing it in my breast said, "Hush, or I'll kill you!" I broke from him and ran to Mrs. Roark's. He wore a black stiff hat, white shirt, gray coat, and had chin whiskers and mustache. (Looking at Braxton, witness identified him as her assailant).

Mr. Lander came after a time brought me to town in his rockaway. There was no person in sight at the time of the assault. Ohio Lander: Live on North Main street. Started to church Sunday night about 7:30 o'clock. Just before reaching rock bridge I met Mrs. Patzke and saw Braxton following her. (Witness here identified Braxton.) Something peculiar in his manner attracted my attention. I never saw Crutchfield. Mrs. Roark and daughter merely corroborated statement of Mrs. Patzke about coming there. George V. Lander: Was in my stable lot hitching my horse Sunday evening about dusk when I heard a scream. Finished what I was doing and led my horse to front. Then heard screaming at Mrs. Roark's, rushed over there and they told me some one had tried to outrage a woman. They said he was "black and ragged" and was right up there (pointing out Madisonville road). I got my pistol, jumped in rockaway and started in pursuit. Saw as I started off a man going out the road, hailed him and he turned and came towards me. Saw pistol in his hand. Told him to halt, thinking certain he was the rapist. Started to get out of the buggy when he snapped at me. I then snapped at him, he snapped again, so did I, and he again. He then started to run and I fired, the ball knocking him down. I ran by him, he jumped up and ran I fired at him again. I chased him for some distance and then lost sight of him. Picked his pistol up where he fell. Showed it to ladies at Mrs. Roark's and Mrs. Patzke said "that's the pistol that was drawn on me."

Herbert Lipkins, col.: Dave Braxton was at my house on First street, near main, about dusk Sunday evening. He was talking to my husband and going towards Main street. Felix Biggerstaff and policeman Wallington testified that Braxton wears a slouch and stiff hat alternately. The reason I arrested him, said Biggerstaff, was because of complaints that had come to me about him and he was under suspicion.

James Crutchfield, Jr., col.: Live 3 1/2 miles north of town. Was at home Sunday. Started to go to Mr. Coburn's about sundown, expecting to spend the night in town. Borrowed my brother's pistol. It had only one load in it and I carried it in my hand all the way. When I got nearly to Mr. Lander's saw a woman standing in the road and a man drive hurriedly from Lander's lane into the road. Didn't know who it was, thought it was a drunken man. He told me to halt but I didn't do it; he then said "if you don't stop I'll shoot you," and cocked his pistol. Then I snapped at him and he snapped at me. I started to run and he shot me.

I fell and as I started again he shot again. I ran through Meun's field and dogs got after me. Finally Bill Gray, col., took me to Dr. Fairleigh's office where my wound was dressed. James Crutchfield, John Crutchfield, Moses Buckner, Wm. Vaughan, and several other witnesses were introduced but their evidence is not material.

John Young said Crutchfield's pistol was an old issue of the British Bulldog and they are now rarely seen. Francis Withers, col.: Was at Mrs. Roark's when I heard screams. Mrs. Roark's Patzke come in very much excited. Started home and heard Mr. Lander say "halt." Saw man run across the road. David Braxton, col.: I live at Judge Petree's place out near Wood's mill. Been at work for Mr. Dalton sawing wood in woods beyond Mr. Mercer's. Was at home Sunday afternoon. Never saw Mrs. Patzke in my life. Left home about 4 o'clock to drive Judge Petree's cow home. Went from there out the railroad over the trestle and through Dalton's brick yard to Mr. Boales'. The five o'clock train came in when I was in brick yard. Didn't go to Boales' house because dogs drove me away. Came back over rock bridge and through Main street to depot. Was there at 6 o'clock. Then went home and stayed there till 8 o'clock and went to Eliza Bronaugh's and stayed there till 10 o'clock train passed. Had on same clothes Sunday that I now have on except I wore a blue shirt. I have a stiff hat, slouch hat and a cap. Was not sitting on the rock bridge Sunday evening. Never met Ohio Lander. Never saw Mrs. Patzke. Here court adjourned till Thursday morning.

Thursday morning the crowd of spectators had considerably diminished. The Commonwealth introduced Harrison Lipkins who testified that he talked with Braxton about dusk Sunday evening at his house on North Main street. Braxton wore a stiff hat at the time. John Lightfoot and Pat Young both testified to having seen Braxton sitting on the bridge a few minutes after 7 o'clock. The latter further said that he met a lady on the bridge as he was coming towards town and that Braxton followed her.

Mr. Breathitt, Braxton's attorney, attempted to prove an alibi for his client. Tom Kelly, Chas. Briscoe, and Marshall Williams were introduced to show that Braxton was at the depot from the time the 5 o'clock train came in until 6 o'clock. Wm. Lockhart says he saw him going out east Ninth street at 6:15, and saw him returning about 8 o'clock. Susan Buckner testified that Braxton was at home from 7:20 till 8 o'clock. Eliza Bronaugh swore that Braxton came to her home at the old Welsh place between 9 and 10 o'clock.

The rest of the testimony was mostly rebuttal evidence to break down Braxton's alibi, and not essential to the understanding of the case. The last witness was examined yesterday afternoon, and the oratory set in. A night session of the court was held last evening to finish the case up. We are not willing to offer a prediction as to the result, but it is more than probable that both Crutchfield and Braxton will be held over. But that is for the court to decide. The court will undoubtedly excuse Mr. Lander and public sentiment applauds his heroic conduct without a dissenting voice.

There is a volume of practical business sense in the single sentence used by John Wanamaker, the millionaire merchant of Philadelphia, about advertising business. He says: "My plan for fifteen years has been to buy a space in a newspaper and fill it up with what I wanted. I would not give an advertisement in a newspaper or 400 circulation for 5,000 dollars or posters." Advertising by cards however costly, and by circulars however elegant, is simply advertising for the waste basket as a rule. For one-fourth the cost of getting up and mailing cards or circulars, the widely-read newspaper will present the business advertisement to double, treble or quadruple the number of people, and the newspaper is always read, news, advertisements and all.

Short addresses will be given by members of the society. Mr. Peter Fox, President, Miss Annie Tandy, Vice-President. A cordial invitation is extended to all to attend the above services.

City Election To-Morrow.

Three trustees for our public schools are to be elected to-morrow. The polls will be open in the city court room, and the officers of election are, G. C. Long and F. L. Ellis, Judges, and R. T. McDaniel, Clerk.

The three gentlemen whose terms expire are Messrs. Joe McCarroll, J. I. Landes and W. T. Bonte. It is probable that these gentlemen will be re-elected, but Judge McCarroll requests us to state that he does not wish to be honored again with the office. The balance of the trustees are Messrs. J. D. Russell, E. M. Plack, Nat Galtner and O. S. Brown. Two of them are elected every year, but every third year three are elected.

Increased Assessments.

We are indebted to our amiable deputy sheriff, Mr. O. S. Brown, for a statement of the assessments of this county. The State Board of Equalization has increased the assessed value of land 6 per cent., and has raised the personalty 5 per cent. The assessor's valuation of our lands was \$4,049,548, the 6 per cent. increase of the State Board raises this to \$4,292,521, an increase of \$242,973. The assessor's estimate of the personalty was \$1,034,037, the 5 per cent. added by the State Board raises this to \$1,085,739, an increase to \$51,702, making the entire increase for the county \$294,675.

With this increase the rate this year will be about 87 cents per hundred, whereas under the levy of the county court it would have been 84 cents.

The Law in the Case.

Attempted rape is not a statutory offense, and is recognized by the common law only as an assault; but the penalty is a fine and confinement to any extent. The statute affords a penalty of imprisonment for life, or death, upon a person violating forcibly the person of an infant under 12 years of age; for outraging one over 12 years of age the penalty is from 10 to 20 years in the penitentiary or death, in the discretion of the jury. This certainly is a peculiar statute.

Senator Hendrick.

We desire to commend Senator Hendrick to the Democratic mass-meeting to-morrow afternoon as suitable timber for one of our delegates at large to the St. Louis convention. Had he not our other virtue, the manly way in which he fought for our Ward bill would entitle him to the vote of every Democrat in the county. He has shown himself to be a friend to our people in a most deserving manner. He lives down at Smithland and is a gentleman of culture and ability. There are four delegates to be selected and his nomination will not interfere with any other preference we may desire to express.

HERE AND THERE

Company D will hold a prize drill at the rink to-night.

Mr. George Cavanah, of the Fruit Hill neighborhood, is critically ill.

The young people of Howell enjoyed a delightful hop last night.

The engagement of Mr. Hop H. Holeman, of Madisonville, and Miss Fannie Nisbet, the youngest daughter of the late Wat F. Nisbet, of Evansville, is announced, and it is said the wedding is set for June 20th.

The case of Winfree vs Anderson will be called in the Common Pleas Court next week. The plaintiff sues for the salary paid to the defendant during his incumbency as County Judge, amounting to over \$1,500.

Mrs. J. D. Clardy is well known as a grower of fine roses. Wednesday the display of marchionels in Latham's window was from her garden. For size and richness of color they are the handsomest roses we have seen this season.

A Bicycle Club was organized Tuesday night, and the following officers elected: Tom Dade, Capt., Frank McCarroll, Sec'y., and John Henderson, Treas. Their next meeting will be held next Tuesday evening.

The residence of Mrs. McDaniel on Clay street came near being the scene of a fire Wednesday. The servant threw some hot ashes on a pile of debris which ignited, and but for timely aid the dwelling would have soon been in flames.

The Y. W. C. T. U. took the streets Monday evening to secure signatures to a petition requesting the Governor not to sign the whisky bill. The young ladies were a little too late, however, as Gen. Buckner had already attached his signature to the bill.

TRENTON, KY.

A Pretty Little Town in Todd Co. Almost Swept Entirely Away by Fire.

At Trenton, Ky., on the 1 & N, Monday night about 12:30 o'clock a fire broke out in the restaurant of Mat Peterson, col., which immediately spread to the business portion of the town, and the flames licked up every thing within reach. There was no way to battle with the fire except the old fashioned style of throwing water with buckets, and the citizens were unable to do anything except look on and watch the destruction of their property. A strong wind made the destruction faster and caused it to be of wider extent than it otherwise would have been on a still night. The origin of the fire is unknown, but the supposition is that it was the work of an incendiary. The loss amounts to between \$50,000 and \$100,000, with between \$35,000 or \$40,000 insurance. Some of the losses are as follows:

Dr. R. R. Grady, \$4,500; J. P. Russell, \$8,000; G. W. Center, 12,000; Old Bank building, \$2,000; J. D. Rutherford, \$5,000; J. Y. Cabanis, \$10,000; G. A. Tally, \$5,000; J. Dickinson, \$800; Old Fellows Lodge, \$1,000; Mrs. Walker, \$1,000. There were a few other small losses which did not amount to much.

Mr. J. D. Rutherford, local agent, held most of the insurance. Some of the risks were held by companies in this city.

It is probable that steps will be taken to rebuild the most important business houses.

Sells Brothers' Model Hippodrome Circus and Menagerie.

If there is anything in the way of immensity, grandeur and superlative general excellence in organizing their standard tented exhibition, which the Sells Brothers have not provided for, or have neglected to procure, it has not been made manifest by a visit.

They have long been in the van in arctic entertainments, but not satisfied with merely "running with the hounds," they have this year determined to lead the pack, and have devoted the entire winter vacation to vastly augmenting and adding to the attractive features of their already formidable shows and to disposing by action of all worn out, discarded and no longer serviceable material and replacing the same with spic-span new paraphernalia and with never before presented specialties.

The Roman Hippodrome, which forms but a quota of their attractions, will revive in the visitors the traditions of the turf and gladiatorial sports of the golden days of Rome, and will present thrilling and realistic duplications of the exciting pastimes of that classic period. The fresh faces of many equestrians—equestrians and gymnasts who have won renown at home and abroad—will be seen in the circus rings, and numberless prominent new acts that are astounding will be presented. Those animals in the zoological department which from being annually exhibited for a number of years are no longer attractive have been disposed of at public sale, and have been replaced by new and rare acquisitions. The pair of gigantic living hippopotami, the only pair exhibited in the world, out side of one or two zoological gardens in Europe, have been retained. The shows will exhibit at Hopkinsville Thursday May 10.

One Responsibility of Citizenship.

The American citizen has only one way in which to manifest his kingship, to vote. He is not only negligent when he fails to exercise the right of suffrage, but he thereby negatively patronizes a vicious government if there be such. There is no reformatory efficacy in fire-sid Phillips or street corner denunciations, unless these are put into practice at the ballot box. Demagogues and bruisers laugh at your indignation so long as you permit them to run things by refusing to vote. They call your righteous anger the heated twaddle of visionaries who know nothing about politics, and they make the masses believe you are a lot of conspirators that want to run things and are mad because you can't.

It is the supreme duty of every citizen to have intelligent opinions and to back them with his ballot. If you stay away from the polls and permit the election of corrupt or incompetent officials, remember that a fit of spleen does not atone for your negligence. Vote, vote, every time, your coat and work for good government. This is what wins elections. Don't become disheartened at defeat and swear you will never have anything more to do with politics. We have been told that there is a large number of respectable citizens in this county who rarely exercise the privilege of suffrage. We do not wish to place a burden upon these, but their negligence is in a great measure responsible for many of the evils under which we groan. This is a plain statement of facts, and the remedy is to be found alone in every man exercising to the utmost this "one responsibility of citizenship."

The town will be full of politics to-morrow. The Republican precinct conventions and the Democratic Committee meeting and Democratic Mass meeting will keep things lively.

THOROUGHLY COMPLETE.

The Clarksville & Princeton Division of the Louisville & Nashville Railroad.

The finishing touches were put on all the heavy work of the recent improvements along the Clarksville & Princeton division of the Louisville & Nashville Railroad last Saturday, and the last workman of the once large force has returned to his home. The improvements consist of the removal of all old bridges and trestles, and placing in their stead magnificent stone abutments and iron truss bridges. The "Iron Trestle," a very large and one of the best located across a ravine about six miles from Princeton Junction; then comes a splendid iron truss bridge, spanning West Fork; then another across Little river and others across Mud Fork and Edly Fork. The stone used in the abutments of each structure were quarried from the banks of the streams spanned, and the masonry is as perfect as the best in the country. The new bridges and trestles are supplied with the very best timber which is used at all, and all are painted with fire proof Asbestos paint, put on very heavy. Most of the road bed is ballasted with macadamized blue limestone, and several forces of men are engaged completing the ballast of the entire line with the same material. To give the public an idea of the improvements along the Clarksville & Princeton division as a promoter of good to the farmer, as well as the stockholders of the Louisville & Nashville railroad, the following summary of figures is printed, which is taken from Engineer Richardson's survey map, and was taken from the assessor's books of Montgomery county, Tenn., and Tipton, Christian and Caldwell counties, Kentucky, for 1884 of property of persons living within six miles of the road on both sides:

Amount tobacco raised.....	1,381,847 pounds.
" wheat.....	626,023 bushels.
" corn.....	816,219 "
" oats.....	412,422 "
" hogs.....	19,125 "
" sheep.....	1,081 "

Since the completion of the road it is known that a majority of farmers have increased their facilities for stock raising fully 20 per cent, but, as every body knows, the tobacco crop of 1884 was short, notwithstanding that an increased acreage was put in over the year 1883. It is safe now to say that the products of the farms along the line will, in 1885, show an increase of fully 33 per cent, over the year 1884. The above figures are now presented in order to prove what great good is done communities by placing railroads through them.

The Verdict Unanimous.
W. D. Salt, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Belleville, Ohio, says: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters. Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidney or blood. Only a half dollar a bottle at Harry B. Garner's City Pharmacy."

A Woman's Discovery.
"Another wonderful discovery has been made and that too by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." This write W. C. Hamrick & Co., of Clarksville, N. C. On sale at Harry B. Garner's City Pharmacy, at 50 cts. and \$1.

Bucklen's Arnica Salve.
THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped hands, Chilblains, Corns, and all skin eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. Sold by Harry B. Garner, City Pharmacy.

The New Chief Justice.
WASHINGTON, April 30.—Melville W. Fuller of Illinois was nominated for chief justice of the supreme court to-day. He was born in Andover, Maine, in February, 1833. He graduated from Bowdoin in 1851. He studied law with his uncle and commenced the practice of his profession in 1856 at Augusta. From there he went to Chicago, where his worth was soon recognized and he was appointed to many honorable positions. In 1888 he married Calista O. Reynolds, and after her decease, Mary Ellen Coolbaugh, who is mother of his eight daughters. He was tendered successfully the solicitor-generalship, a position in the civil service commission and the interstate commission, and then a place on the Pacific Railroad commission. None of these places were acceptable to Mr. Fuller. Mr. Fuller presented the claims of Chicago to the National Democratic Committee at its recent meeting in this city for the honor of entertaining the convention of the year. By this appointment the seventh judicial circuit, which has not been represented in the supreme bench since the late Judge Davis resigned, again procures representation. The appointment of Fuller as chief justice gives general satisfaction to all parties. He is considered a safe and very talented man, abundantly equipped for the distinguished position, though never active in political fights and wrangles.

The Treasury Bill.
The House has passed the bill regulating the mode in which the business of the Treasury is to be conducted. The bill takes effect in July. The bill prohibits the payment into of the Treasury except on a permit and warrant of the Auditor. The money paid into the Treasury is to be deposited in the Farmers' Bank and the Branch Bank at Frankfort, to be paid out by them on checks signed by the Treasurer and countersigned by the Auditor. The Treasurer not to draw checks ex-

ception warrant of the Auditor, both to be numbered serially and the numbers to correspond.
The Governor may at any time require from the banks a statement of the deposits; and may order their removal. He may also require the Auditor and the Treasurer to furnish him statements of the accounts of their respective offices; and the banks are required to state balances daily. The bill originally required quarterly statements of the condition of the Treasury to be published in the Louisville papers; but this was properly amended by adding the cities of Covington, Paducah, Owensboro and Lexington.

FOOD TEST IN NEW YORK.

Official Analysis of Baking Powders—Adulterated—Examined before Esq.

Under the direction of the New York State Board of Health, eighty-four different kinds of baking powders, embracing all the brands that could be found for sale in the State, were submitted to examination and analysis by Prof. C. F. Chandler, a member of the State Board and President of New York City Board of Health, assisted by Prof. Edward G. Love, the well-known United States Government chemist.

The official report shows that a large number of the powders examined were found to contain alum or lime; many of them to such an extent as to render them seriously objectionable for use in the preparation of human food.

Alum was found in twenty-nine samples. This drug is employed in baking powders to cheapen their cost. The presence of lime is attributed to the impure cream of tartar of commerce used in their manufacture. Such cream of tartar was also analyzed and found to contain lime and other impurities; in some samples the extent of 93 per cent. of their entire weight.

All the baking powders of the market, with the single exception of "Royal" (not including the alum and phosphate powders, which have not the virtue of even an impure cream of tartar), are made from the adulterated cream of tartar of commerce, and consequently contain lime to a corresponding extent.

The only baking powder yet found by chemical analysis to be entirely free from lime and a solely pure is the "Royal." This perfect purity results from the exclusive use of cream of tartar specially refined and prepared by patent processes which to-day remove the tartrate of lime and other impurities. The cost of this chemically pure cream of tartar is much greater than any other, and on account of this greater cost, is used in baking powder but the "Royal."

Prof. Love, who made the analysis of baking powders for the New York State Board of Health, as well as for the Government, says of the purity and wholesomeness of the "Royal":

"I find the Royal Baking Powder composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates or other injurious substance. E. G. Love, Ph. D." It is highly satisfactory to the housekeepers of this vicinity, where the "Royal" Baking Powder is generally used, that the investigations by the analysts in Massachusetts, New York, and Ohio, the only States that have thus far taken action upon this impure subject, agree in classing it as the purest and most efficient baking powder in the market.

Our subscribers should remember that we are running on the cash system, and it is very necessary for them to pay when their times are out, as we stop all papers when out. We want everyone to subscribe for the KENTUCKIAN.
